

NET ZERO FACTSHEET

SO, WHAT ARE THE BIG BENEFITS OF REACHING NET ZERO?

- ✓ Climate damage is leading to extreme weather, natural disasters, floods and droughts.
- ✓ Saving money on energy bills in our homes, schools and workplaces.
- ✓ Reducing landfill and using our waste.
- ✓ Saving our planet and the nature we love.
- ✓ Keeping us all healthier and happier with fresh, clean air.

5 WAYS TO REDUCE YOUR CARBON FOOTPRINT.

News flash! The UK is the first country to pass a Net Zero law

Emissions are created when we use fossil fuels

Trees are planted in their millions for reforestation

Zero carbon means releasing no carbon into the atmosphere

Environmental effects of pollution are devastating!

Removing carbon from the air can help clean up our global mess

Offsetting 'carbon-dioxide-in' with 'carbon-dioxide-out' is how we get NET ZERO

1

REFUSE
