## NASA'S TEAM ARTEMIS

## TEAM ARTEMIS AT NASA

### MY LIST OF PEOPLE / ROLES

**SATELLITE TECHNOLOGY LIKE NASA'S RELAY SATELLITE SYSTEM (TDRS) AND COMMUNICATION SATELLITES SUPPORT SPACE EXPLORATION SUCH AS THE INTERNATIONAL MISSION BEING UNDERTAKEN BY NASA'S ARTEMIS TEAM.**

Artemis is the programme to return astronauts to the Moon by 2024, preparing the way for human missions to Mars and to find out if humans can live on other planets. Some of the Artemis astronauts have already lived on the International Space Station, which is a satellite designed for human habitation.

Strong teamwork is vital in any industry, including the space industry. Make a list with a brief description of as many different roles you think would be needed within Team Artemis to achieve the ambition of living on other planets.
